Office Memorandum

Sub: - Citizen and State actions for water conservation, augmentation and preservation.

The undersigned is directed to say that water is not an infinite resource and sources of water will dwindle due to global warming, over-exploitation, human errors etc. Water table is going down day-by-day and in some of the areas in India have come into the category of severe to critical. Some of the areas are over-exploited and soon those areas may reach the level of "Day Zero". Hence there is an urgent need to conserve every drop of water.

2. A lot of water is being used in toilets and canteens of Govt. Offices. It is noticed that many times water taps used there are not closed properly resulting in the wastage of a large quantity of water due to free flow of water these open taps. It should be ensured that leakages from these taps are plugged.

3. We can reduce the water usage while washing hands in toilets and canteens, If a contraption called "Aerator" Which is easily available in the open market and Through online shopping is attached to the taps (as enclosed). We can save upto 80% of tap water in every use this way. In total million liters of water can be saved all over the country if this intervention is implemented.

4. It is requested that awareness for Water Conservation water may be spread among officials of your Ministry/Department by issuing directions to keep water taps closed when they are not in use. Directions may also be issued to all concerned to install a water saving device i.e. "Aerator" at the outlet of water taps as a contribution towards Water Conservation.

5. This issues with the approval of Mission Director, National Water mission.

Encl: As above

(Vinod Kumar)
Under Secretary to the Govt. of India
